A. GENERAL

Q1. What is the intent of the Car Park Label Scheme?

Under the scheme, vehicles that display the Car Park Label can be parked at accessible lots to allow drivers and passengers with physical disabilities to embark or disembark safely.

Drivers and passengers with physical disabilities must be certified by a Singapore registered medical doctor as requiring the use of bulky mobility aids and a wider space to embark or disembark safely from their vehicles.

Q2. What is the difference between the Class 1 and Class 2 labels?

Class 1	Class 2
<ul style="list-style-type: none">• Applicants are drivers with physical disabilities who require the use of bulky mobility aids and a wider space to embark or disembark safely from their vehicles• The qualified driver with physical disability can park in the accessible lot for any duration	<ul style="list-style-type: none">• Applicants are passengers with physical disabilities who require the use of bulky mobility aids and a wider space to embark or disembark safely from their vehicles• The driver is permitted to park temporarily in the accessible lot for up to 60 minutes to assist the qualified passenger with physical disability to embark or disembark safely from the vehicle

Q3. Why is there a difference in the parking duration for Class 1 and Class 2 label holders?

The Class 1 label supports drivers with physical disabilities who are totally dependent on the accessible lots to embark or disembark safely from their vehicle. The Class 2 label supports passengers with physical disabilities who have assistance from their caregiver-drivers to embark or disembark safely from the vehicle before the caregiver-drivers move the vehicle to a standard parking lot.

Q4. I drive but sometimes I am ferried by my family members and/or caregivers. Can I apply for both the Class 1 and Class 2 labels?

Individuals may only apply for one label under the scheme. You are strongly encouraged to apply for the label that best represents your regular mode of transport arrangement.

Q5. I (/ my caregiver) own more than one vehicle. Will I get a label for each vehicle?

As the label is tagged to the qualified label holder (i.e. the driver or passenger with physical disability), only one label will be issued. The Class 1 label is strictly non-transferable while the Class 2 label is only transferable between the two registered vehicles as per approved in the application.

Q6. I am a motorcyclist. Can I still apply for the Car Park Label Scheme?

The Car Park Label Scheme is only applicable to cars and Social Service Agency(SSA) registered vehicles used to ferry passengers with physical disabilities.

Q7. I am a season parking ticket holder as well as a Class 1 / Class 2 label holder. Am I given priority to park at the accessible lots over non-season parking ticket holders?

The use of the accessible lot is on an availability basis regardless of the type of label (i.e. Class 1 or Class 2) or whether one is a season parking ticket holder.

Q8. How can I report cases of suspected misuse of the accessible lots?

To report suspected misuse of the accessible lots, please call:

Enforcement hotline - Land Transport Authority (LTA), Housing & Development Board (HDB) and Urban Redevelopment Authority (URA) @ 1800 338 6622, or

NParks @ 1800 471 7300

For private parking areas, please approach the respective car park operators.

B. ELIGIBILITY CRITERIA

Q1. What are the eligibility criteria for the Car Park Label Scheme?

Class 1	Class 2
<ul style="list-style-type: none">• Drivers who possess a valid Singapore driving licence• Drivers with physical disabilities who are certified by a Singapore registered medical doctor as requiring the use of bulky mobility aids and a wider space to embark or disembark safely from their vehicles• Note: Those with medical conditions such as cerebral palsy, loss of lower limbs, muscular dystrophy and poliomyelitis will be considered based on needs and not just the type of mobility aid they use.	<ul style="list-style-type: none">• Passengers with physical disabilities who are certified by a Singapore registered medical doctor as requiring the use of bulky mobility aids and a wider space to embark and disembark safely from their vehicles• Note: Those with medical conditions such as cerebral palsy, loss of lower limbs, muscular dystrophy and poliomyelitis will be considered based on needs and not just the type of mobility aid they use.

Q2. I have a transport company that ferry passengers with disabilities, can I apply for the Car Park Label Scheme?

You may apply for the Class 2 label for Social Service Agencies (SSAs) through any of the Social Service Agencies (SSAs) that are registered and listed in the National Council of Social Service (NCSS) website. Please refer to the link provided:
