

The Integrated Child Care Programme (ICCP) is an inclusive programme offered at selected mainstream childcare centres for children with special needs aged **2 to 6 years old** who have been diagnosed as having **Mild to Moderate** disability.

Please speak to your child's paediatrician or Medical Social Worker for assistance in submitting a referral to SG Enable; more information can be found on the SG Enable website.

While every effort will be made to place children in their preferred centres, acceptance into the ICCP programme at the preferred centre is subject to the number of vacancies at the centre and to the respective centre management's discretion.

GENERAL INFORMATION

- A Special Needs-trained teacher will assess the child's needs, and will eventually develop the Individual Education Plan for the child after the trial period is successfully completed
- No therapy is provided
- No caregiver's presence is required
- *Presbyterian Community Services (PCS) centres require the child to undergo the mandatory Intervention Cum Education (ICE) Programme prior to enrollment in ICCP. ICE Programme is a specialized one-to-one intervention-based program. Each session lasts for an hour, and the child has to undergo at least 20 sessions before eventual enrollment in ICCP. Please contact any of the PCS ICCP centres for more information
